

INTERNSHIP EXPERIENCE

India Glycols Limited (IGL)	May 2026 – Jun 2026
IT Intern – Enterprise Visitor Management System	Kashipur, Uttarakhand
- Engineered a full-stack Enterprise Visitor Management System using React.js and Python, developing 40+ REST API endpoints to replace a manual, unverified check-in process with a secure digital workflow. - Deployed the automated system to support 50+ internal employees, establishing real-time visitor registration, meeting scheduling, and seamless employee-visitor interactions. - Orchestrated a robust PostgreSQL database integration, ensuring secure storage of visitor records and approvals, thereby reducing manual data processing by 50 hours monthly. - Directed a 4-member intern development team as the designated lead, overseeing requirement gathering, API integration, debugging, and final production deployment.	

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, JavaScript, HTML, CSS
Frameworks & Libraries: Spring Boot, React.js, Node.js, Pandas, NumPy, Matplotlib, OpenCV
Tools & Platforms: AWS, Docker, Git, GitHub, VS Code, Postman, Cisco Packet Tracer
Databases: PostgreSQL, MySQL
Core Concepts: Data Structures & Algorithms, OOPS, DBMS, Computer Networks, Operating Systems

PROJECTS

CarbonTrack – Sustainability Analytics Platform	Jun 2026
Live Demo	
Java, Spring Boot, PostgreSQL, Docker, Cohere AI, Resend API	
- Architected a scalable RESTful backend using Java and Spring Boot, engineering 30+ secure API endpoints with JWT authentication, Google OAuth2, and role-based access control (RBAC). - Designed and optimized PostgreSQL database operations to ensure reliable data management and efficient API performance for carbon footprint tracking. - Spearheaded integration of Cohere AI, generating personalized carbon footprint recommendations and automated email notifications via Resend API, processing over [NUMBER] recommendations daily.	
Enterprise Visitor Management System (IT Internship)	May 2026 – Jun 2026
Live Demo	
Python, React.js, TypeScript, PostgreSQL, WebSockets	
- Launched a full-stack Enterprise Visitor Management System built with React.js and Python, reducing manual check-in times by 40% and improving overall lobby efficiency. - Established real-time visitor approvals using WebSockets, allowing employees to approve or reject visitor requests instantly. - Formulated secure PostgreSQL database integration, programmed REST APIs, and led a 4-person intern team to deliver a production-ready enterprise application.	
Analyzing Urban Growth for Green Space Planning Using GIS	Nov 2025 – Dec 2025
Live Demo	
Python, GIS, Deep Learning, U-Net, OpenCV, Flask	
- Developed a GIS-based urban growth analysis application using semantic segmentation on satellite imagery to assist sustainable planning. - Engineered a U-Net deep learning model focused on land-use classification, processing 2,000+ images per week; streamlined prediction pipelines contributed to a 50% reduction in analysis time. - Built an interactive Flask application to visualize training curves, prediction outputs, and environmental recommendations.	

EDUCATION

Vellore Institute of Technology, Bhopal	2023 – 2027
	CGPA: 8.49/10.0
Maria Assumpta Senior Secondary School (XII)	2023
	Percentage: 82.0%
Maria Assumpta Secondary School (X)	2021
	Percentage: 88.4%

CERTIFICATIONS

- Networking Basics – Cisco Networking Academy (2025)
- Networking Devices and Initial Configuration – Cisco Networking Academy (2025)

EXTRA-CURRICULAR ACTIVITIES

- Open-Source Contributor – Diagnosed and resolved several bugs within open-source projects using Git and GitHub.
- President, Null Student Chapter – VIT Bhopal (Jun 2024 – Present) – Led technical discussions and coordinated cybersecurity workshops for 100+ students, fostering a culture of security awareness. Organized chapter events, managed team responsibilities, and collaborated with industry professionals.
- Finalist, HEALTH HACK 2024 – Johns Hopkins University & VIT Bhopal.
- Achieved 2nd Runner-Up position in the Spacevita Ideathon, VIT Bhopal, outperforming 50+ competing teams with an innovative project concept.
